

# Top Tips to help you get the most out of the Open Event

1

## Explore the courses you are interested in before you arrive.

Before you come, take a look at our [website](#) to see what courses we offer and what areas you would like to visit.

2

## Undecided about what to study?

When you are deciding what to study, it is important that you choose subjects that you enjoy as well as those that will help you on your career path.

Don't make choices based purely on career prospects or salary; pick a subject that you are passionate and motivated about. Staff are on hand throughout the event to provide advice and guidance on your options.

3

## Think of some questions.

Once you have decided which courses you are interested in, why not prepare some questions to ask our lecturers and student ambassadors at the event?

For example:

- What is the course content?
- What are the entry requirements?
- Do you need any equipment for the course?
- What careers could this course lead into?

4

## Take a virtual tour (360° Views)

We have exceptional industry-ready facilities including our Restaurant, Salon and Spa, Nursery, Sports hall, Gym and Theatre.

You can also take a look around some of our Workshops, Studios and our Learning Resource Centre.
